

# Bob and Sue Gregg's 2021 Family Journal

We will always remember this year for the Atlanta (Cobb County) Brave's World Series victory and the University of Georgia's undefeated regular season success. In addition, Jen celebrated her fiftieth birthday, Bob his eightieth, and we celebrated our fifty-sixth wedding anniversary. Our granddaughter Alyssa received a full four-year scholarship to Syracuse University in New York, for a degree in Journalism. Bob still is doing his morning runs and we both take a mall walk after breakfast. Ree is living in Power Springs with her dog Lily.

We had several small leaks in our copper pipes in the house last year and had them repaired. This year, several more leaks occurred and we decided to replace all the hot and cold water pipes. That, and the necessary repairs took some time, but hopefully we are done with the leaks. We moved into the house in 1985 when the house was about seven years old.

In April, we made our annual month long spring trip to Lakewood RV campground in Myrtle Beach, South Carolina. We keep the camper in storage at the campground. Since we skipped our last two trips because of the virus, it was about a year and a half since we were last there. When we inspected the camper, there was a rainwater leak in the roof. We cleaned the leak and had it repaired. This year, Jen came for a short visit and we all took a trip to charming Charleston, South Carolina. We went on a guided photo tour of the low country and returned to Lakewood Campground.

After we returned home from Myrtle Beach, we drove to Kingsport, Tennessee for Alyssa's graduation from Dobyns-Bennett High School. She was one happy and proud graduate. Her hard work and dedication earned her the Syracuse scholarship.

Over the summer, we went to the Van Gogh Experience, and later the Illuminarium, a 3-D presentation of African wildlife with Jen. Bob and Jen ran the Peachtree 10K again this year. It was gratifying to see the crowd of runners again.

Jenny drove Alyssa along with her belongings to Syracuse University and we drove separately. We all met up at an Airbnb near the campus and stayed a week in the area. During our stay, we took a two day trip to Buffalo, New York to visit Niagara Falls. While we were there, we also took a tour of the Martin House, designed by Frank Lloyd Wright. Bob and Jen toured the Baseball HOF in Cooperstown and we all toured the Erie Canal Museum in Syracuse. Alyssa and Jen loaded her things into her dorm room and we all took a tour of the campus, including the School of Journalism building. We purchased a few souvenirs and bought some "Grandparents" Syracuse shirts, three wall tiles, and a travel pin for the kitchen and dinette.

We made our annual October trip back to Lakewood and stayed for the month. The leak that we repaired in the spring was back and we learned we needed extensive repairs to the roof. The camper is fifteen years old and showing some wear and tear. We decided to wait till next year for the repairs. We enjoy our time in Myrtle Beach and being near the seashore.

Jenny's two dogs, Magic and Lovie, are aging and she decided to adopt a new puppy from PAWS which she named Cheyenne. Jenny volunteers and photographs dogs and cats at PAWS. She is still working at CNN as a video editor. Bob and Jen had a Daddy Daughter night at Truist Park after the World Series. They took a guided tour of the stadium including the press boxes, several suites, and sat in the Brave's dugout. It was a fun night!
